GOPIKIRAN S

Software Engineer | Full Stack Developer

gopikirans14@gmail.com 9363789859 Virudhunagar linkedin.com/in/gopikirans

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience building scalable enterprise applications using **Angular, Spring Boot, Python, and SQL**. Experienced in developing REST APIs, workflow-driven applications, real-time systems, and AI-powered solutions. Strong foundation in full-stack development, business process automation, database design, and production deployment across enterprise applications.

WORK EXPERIENCE

Software Engineer 06/2025 – Present
Asir Technologies Private Limited Nagercoil, India
• Developed enterprise-level Angular, Spring Boot, and MySQL applications supporting workforce management, CRM, and sales operations.
• Built workflow-driven modules for performance management, project tracking, timesheet management, and multi-step approval processes.
• Designed secure REST APIs with role-based security, DTO architecture, validation logic, and optimized database queries.
• Developed responsive Angular applications using standalone components, reactive forms, shared services, and enterprise design patterns.
• Implemented complex business rules including overlap checks, assignment rules, validations, and approval workflows.
• Contributed to Azure AD integration planning and enterprise application design.

Automotive Data Analyst 01/2025 – 05/2025
Clear Quote Technologies Madurai, India
• Designed and executed data validation frameworks to ensure accuracy, consistency, and compliance with automotive standards.
• Automated recurring validation activities, reducing manual effort and improving data processing efficiency.
• Collaborated with cross-functional teams to standardize validation processes and improve data reliability.

PROJECTS

Smart Bag Counter — AI-Powered Industrial Edge Monitoring System
- Built an end-to-end multi-threaded computer vision system for real-time bag counting from live RTSP conveyor streams.
- Integrated RT-DETR using ONNX Runtime and OpenCV with model warming to minimize inference latency.
- Designed centroid-distance tracking and multi-directional line-crossing algorithms with high occlusion resistance.
- Developed a FastAPI backend and WebSocket streaming server for real-time annotated video and an Angular dashboard with live metrics.

Enterprise Workforce Portal
- Developed a unified workforce platform covering performance appraisal, LMS, attendance tracker, project allocation, and timesheet/productivity tracking.
- Implemented multi-step approval workflows, role-based access controls, reporting dashboards, and optimized REST APIs.
- Configured CI/CD pipelines for automated build, testing, and deployment.

Sales Application — CRM & Document Builder
- Built a CRM platform for prospect lifecycle tracking, requirement management, and sales assignment workflows.
- Automated generation of NDA, MSA, SOW, and proposal documents using Jasper Reports.
- Implemented role-based security, structured DTO/service layers, Docker containerization, and workflow-driven UI.

SAP SD & Fruitsy Workflow Automation(ACRA)
- Created workflows to automate via teams chatbot using ACRA.
- Executed end-to-end Sales Order processing.
- Performed backorder verification and release activities.
- Troubleshot sales order and delivery issues by analyzing SAP SD master data and document flow.

TECHNICAL SKILLS

- **Languages:** Java, Python, TypeScript, JavaScript, SQL
- **Backend:** Spring Boot, FastAPI, REST API Development
- **AI / Computer Vision:** PyTorch, ONNX Runtime, OpenCV, RT-DETR
- **Frontend:** Angular, ReactJS, HTML5, CSS3, Responsive UI Design
- **Database & Tools:** MySQL, PostgreSQL, GitHub, Docker, CI/CD
- **Other:** Role-Based Authentication, WebSockets, Agile Collaboration, Data annotation/validation

EDUCATION

Bachelor of Engineering (B.E.) in Electronics and Communication Engineering, Virudhunagar, India
Mepco Schlenk Engineering College, Sivakasi | 2024 | CGPA: 7.0

AWARDS & CERTIFICATIONS

Extra Miler Award 24/04/2026

Asir Technologies Private Limited

- Recognized for outstanding contributions to the Performance Appraisal System, rapid adoption of new technologies, and contributions across ASIRites enterprise applications and the Sales Document Builder.

Java Full-Stack Developer Certification 01/12/2024

Greens Technologies, Chennai

- Java OOP, Spring Boot, JavaScript, ReactJS, MySQL, backend and database integration
